## **SUMMARY**

Entry-level IT Support professional with hands-on experience in troubleshooting, Windows 10, macOS, hardware diagnostics, and virtualization. Strong background in high-pressure, safety-critical environments requiring precise documentation, problem-solving, and customer interaction. Known for quickly learning new systems, resolving technical issues efficiently, and improving operational reliability. Currently expanding technical expertise through IT and software development coursework.

## **EXPERIENCE**

### **Correctional Officer II — Missouri Department of Corrections, Bowling Green, MO (Apr 2024 – Present)**

- - Resolved issues quickly in a high-stakes environment, demonstrating calm, analytical problem-solving.
- - Documented incidents and system activity with accuracy, supporting compliance and audit readiness.
- - Trained new staff on procedures and system tools, improving team efficiency.
- - Applied conflict-resolution strategies that contributed to a 30% reduction in incidents.

### **Private Contractor — Self-Employed, Hannibal, MO (Jul 2023-April 2024)**

- - Managed projects independently, coordinating tasks, timelines, and customer communication.
- - Diagnosed and solved structural and mechanical issues, demonstrating strong troubleshooting skills.

### **Table Games Dealer — Mark Twain Casino, LaGrange, MO (Apr 2023 – Jul 2023)**

- - Delivered customer support in a fast-paced environment while maintaining accuracy and professionalism.
- - Resolved disputes and clarified rules, demonstrating clear communication and service-oriented problem-solving.

**Diecast Operator — Spartan Light Metal Works, Hannibal, MO (May 2022 – Dec 2022)**

- - Operated and maintained automated machinery, troubleshooting mechanical and programming issues.
- - Edited machine programs to improve reliability and reduce downtime.
- - Performed quality checks and documented results to ensure compliance with specifications.

**Machine Operator — Hannibal Carbide Tool, Hannibal, MO (Nov 2012 – May 2018)**

- - Interpreted technical specifications and ensured precision manufacturing within tight tolerances.
- - Conducted inspections and documented measurements for quality assurance.
- - Maintained equipment and tools, identifying issues before they caused downtime.

**EDUCATION**

Full Sail University — Undergraduate Certificate, Information Technology (Completed Jul 2023)

LaunchCode — Foundations of Software Development (Completed Oct 2025)

LaunchCode — Software Development Flex Program (Mar 2026 – Aug 2026, In Progress)
